

**SMT**

**Contributing to Food  
Safety and Security**

**Food-Grade Grease  
Packed Bearings**

**Why not improve the bearings  
for food safety and HACCP compliance?**

- Filling with NSF H1 certified grease
- HACCP compliant

**SMT responds to grease change  
with a short delivery time and  
in small lots starting from one piece.**

## What is HACCP?

HACCP is a method of hygiene management. It aims to ensure the safety of products by controlling critical processes to eliminate or reduce risk factors from the arrival of raw materials to the shipment of products.

## What is NSF H1?

NSF H1 is a standard for lubricants that can be used in areas where there is a possibility of incidental contact with food products.

## How to make a product inquiry

Bearing number

ZZ or 2RS

grease for  
food machines

Please make an inquiry with above information and quantity.

\*Let us know the operating temperature if it exceeds 100°C/212°F.

## Available series

### SS Series AISI 440C Stainless Steel Bearings

SS6800 ~ SS6808、 SS6900 ~ SS6916、 SS6000 ~ SS6016  
SS6200 ~ SS6214、 SS6300 ~ SS6312

### 6S Series AISI 304 Stainless Steel Bearings

6S696B、 6S626B、 6S698B、 6S608B、 6S628B、  
6S6800B ~ 6S6802B、 6S6804B、 6S6805B、  
6S6900B ~ 6S6905B、 6S6000B ~ 6S6008B、  
6S6200B ~ 6S6208B、 6S6300B、 6S6302B

Also available in all our other series.
